

Feed-through capacitor - 4,63mm dia

32813110D / 112 / 114 / 116 / 118

Press-fit Feed-through capacitor for mounting in a 4,46mm hole.

Working voltage.....	200Vdc.
Test voltage.....	600Vdc 1min.
Feed-through current.....	max 10A
Insulation resistance.....	min 10 ⁴ MOhm.
IEC category.....	55/125/56
Capacitance.....	See below
Marking.....	None
Mounting hole.....	4,46mm-+0,01.
Recommended outside dia. of mounting tool.....	4,0mm
Recommended inside dia. of mounting tool.....	2,5mm

Proper installation requires firm, steady pressure until flange is fully seated.

Type number	Capacitance and tolerance
32813110D	10pF max
32813112D	100pF -20/+100%
32813114D	150pF -20/+100%
32813116D	470pF -20/+100%
32813118D	680pF -20/+100%
