

PI-filter for EX applications according to EN 50 020

33823001S

Corresponding to F.C. Spec. 95614

Working voltage.....	500Vdc.
Test voltage.....	2000Vac 5 sec.
Feed-through current.....	max 10A
Insulation resistance.....	min 10000 MOhm.
IEC category.....	55/085/56
Capacitance (total).....	2x2500pF-20/+ 10%
Inductance.....	min.300nH
Soldering conditions.....	max 250deg C
Coating.....	Grey Varnish

Attenuation (typical values).....	1MHz	2dB
	10MHz	25dB
	100MHz	70dB
	1000MHz	80dB
