

Energy Monitoring Current Sensor

SCT-0750

Measuring AC current passing through the center

0,75 inch opening current transformer

Electrical specifications

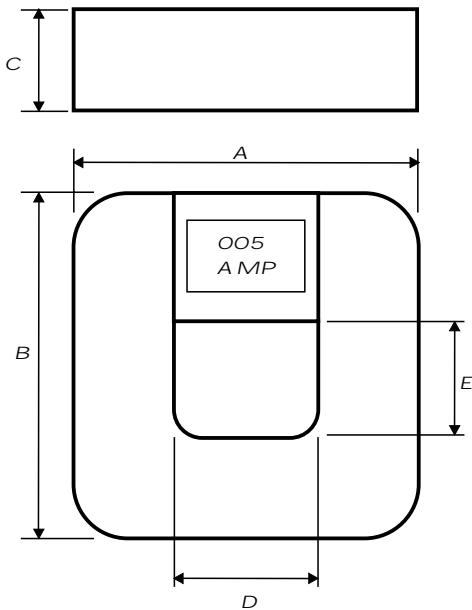

- *Output 0,333V at rated current
- *Accuracy $\pm 1\%$
- *Phase angle < 2 deg
- *Rated accuracy at 10% to 130% of rated current.

Mechanical specifications

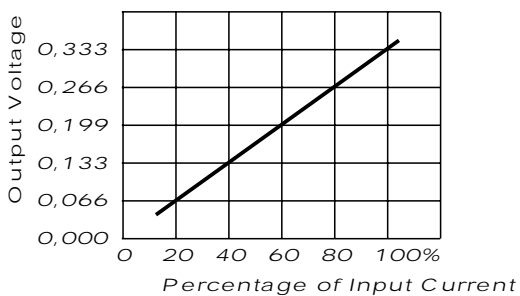

- *Epoxy encapsulated housing.
- *Leads-8ft. Twisted pair, 22 AGW.

Features

- *UL recognized.
- *Precision burden resistor.
- *Other sizes and specs. Available.
